

MASON SQUARE VISITOR PARKING

Visitor parking is available in the Van Metre Hall, Vernon Smith and Fuse Parking Garages. Guests are encouraged to enter the specific garage name and 'Founders Way North' in their GPS to ensure accurate directions.

The Fuse Parking Garage, Van Metre Parking Garage and Vernon Smith Garage are all accessible via Founders Way North from either Kirkwood Rd. or Washington Blvd. Guests should follow the posted garage signage to ensure they enter the correct parking facility.

Payment for parking in the Van Metre Hall, Vernon Smith and Fuse Garages is made via the **Metropolis app** available below. Visitors parking in any garage should enter, park, and proceed to their destination. Signs with a QR code are located throughout the garages. Guests need to scan the QR code, then follow the prompts to enter license plate and payment information. We recommend guests scan the QR code and complete the process prior to arrival at Mason Square, since internet connectivity in the garages can be limited. However, if guests are unable to scan the QR code from the garage, they should proceed to park and can scan the QR code once inside the building and then complete the process from there. (Please note guests will need to know their license plate number in order to complete the process.) Guests will only need to complete this process one time; future visits will be drive-in/drive-out.
